## **DETAILED ACTION**

### ***Terminal Disclaimer***

The terminal disclaimer filed on 28 October 2008 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of 6,199,076 has been reviewed and is accepted. The terminal disclaimer has been recorded.

### ***Drawings***

New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because Figure 5 is not labeled as a Replacement Sheet. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

### ***Allowable Subject Matter***

Claims 34 – 62 are allowed.

The following is an examiner's statement of reasons for allowance:

Applicant's arguments are persuasive. Specifically, the prior art does not teach, suggest or make obvious (in combination with the other elements of the claims) an audio program player that has a communications port to download from one or more

server computers a sequencing file and a plurality of audio program files wherein the downloaded sequencing file specifies an order sequence of a collection of the audio program files stored in the player's memory unit.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
